It is an interesting fact to note that in the fiscal year ending on June 30, 1907, there was but thirty gallons of pure pineapple brandy made in the entire United States. It is also remarkable to note the fact that this was made in Ohio. There was other pineapple brandy made by the mixing of spirits with pineapple flavor, but of course this was of an inferior quality.

Deputy Collector of Internal Revenue Ralph S. Johnstone will leave for Maui on the Mauna Kea tomorrow to look over the work being done at the Kaupakulua Wine and Liquor Company and see that the regula-tions of the Federal Government are properly carried out.
